

innovation is our passion...

CORPORATE PROFILE

GTX has made a strong impact in the market for its creativity and in offering speciality products for melt Spinning and Yarn processing. It is currently one of the biggest manufacturing house of Air Tex Yarn (ATY) in India.

GTX, the fibre division of Aalidhra Group of companies was started in 1992. It is an integral part of Aalidhra, which itself is a pioneer and market leader in manufacturing Textile machinery.

We currently have an installed production capacity of 73,000 MT of Partially Oriented Yarn (POY), 73,000 MT of Fully Drawn Yarn (FDY), 55,000 MT of Draw Textured Yarn (DTY) and 55,000 MT of Air Textured Yarn (ATY) per annum. In addition to that, we have production capacity of 500 tons per day for polyester chips. We are also capable to deliver technical textile yarns for industrial usage, as per customer specifications.
